Smart solutions for safe and drug-free schools

Keeping students safe with proven and affordable solutions

tyco / Fire & Security

# Focusing on their safety, so they can focus on learning

As an educator, you strive to create an environment that nurtures personal growth and promotes learning free of distractions and threats. The U.S. Department of Education agrees that without a safe school environment teachers cannot teach and students cannot learn.

Providing students with a quality education is a delicate balancing act. The realities and demands are many and are critical. At ADT, we understand the challenges facing educators and administrators as you struggle to protect students and staff from harm. Our solutions are effective, practical, and affordable. They address school needs head-on. Best of all, they work in concert with one another to provide a comprehensive safety and security solution.

Peace of mind in a risky world

Parents look to our schools to keep their children safe. But there are overwhelming challenges to maintaining safe and orderly learning environments. Vandalism and theft, bullying and intimidation, unwelcome visitors, weapons, and drugs all make an educator's job one of

the toughest in the community.

ADT is committed to partnering with educators to help keep schools safe and drug free by providing advanced solutions at a reasonable cost. We believe it is possible to dedicate your limited resources to quality education and at the same time implement a tough and effective policy regarding safety and drugs on school property.

Safety in numbers

Individually each of our solutions stands solidly on its own, providing protection and reducing risk to your students. When implemented together you benefit from the synergy of shared technology and application expertise, that result in a whole that is greater than the sum of its parts. Your schools benefit from lower installation costs, greater system-wide efficiency, and more powerful reporting capabilities.

As a comprehensive solution, safety and security is easier to manage. Shared monitoring and control functions paint a more vivid picture of events as they occur. It better equips responders with the information they need for quick and effective action. And when school safety and security are on the line, action is one thing that can't risk a failing grade. After all, helping children become more successful learners by creating safe and drug-free schools is a task worth mastering.

Innovative solutions, shared technology, and application expertise from ADT make schools safer and more secure.

A pervasive problem...

257,000
Number of violent incidents on school property that required police intervention.[1]

30%
Percentage of students who have been offered, sold or given drugs at school.[2]

194,000
Number of drug possession arrests among juveniles in 2004.[3]

A comprehensive solution...

Deterring violence, theft and vandalism

Controlling access to students and campuses

Video Surveillance
Perimeter, hallway, and school bus video surveillance provides security coverage to more of your school without increasing staff. Integrated systems help detect and deter crime and provide clear records when there is an incident.
- Conventional, pan-tilt-zoom, and discreet surveillance cameras
- Digital recorders
- Monitors
- School bus wireless transmitters
- IP-based networking
- System control
- Intelligent image analysis

Fire Detection
Intelligent multisensor smoke detectors reduce false alarms. Voice audio provides clear evacuation instructions. Compact audible/visible signals are easily distinguishable from class change tones.
- Fire alarm systems
- Intelligent smoke detection
- Emergency notification signals
- Integrated graphical controls
- Multiple language support for emergency evacuation

Access Control
ADT access control systems protect students and staff from intruders, and secure sensitive areas such as labs, offices, workshops, and student records.
- Access control software
- Photo ID credentials
- Biometrics-based access control
- Card readers, keypads, and control panels
- Visitor management systems

462
Number of school-associated violent deaths reported between 1992 and 2002.[4]

160,000
Number of children too afraid to go to school each day.[5]

8,000
Number of fires reported in schools annually.[6]

Detecting & reducing drugs and explosives on campus

Detecting and communicating threats

Sound and Communication
Engineered expressly for schools, ADT sound and communications systems reach classroom occupants in emergencies or just for day-to-day needs.
- School intercom
- Video paging
- Duress alarm paging
- Timekeeping control
- Closed-circuit broadcasting
- Digital media management
- Video on demand
- Curriculum management
- Program distribution

Intrusion Detection
ADT intrusion alarm systems guard students and staff against intruders, and protect property from theft and vandalism.
- Alarm control panels
- Keypads and key fobs
- Motion, environmental, and glass break sensors
- Magnetic contacts
- Intelligent, programmable locks

Trace Detection
With growing concerns over threats from drugs and explosives on school property, it's more important than ever to implement a tough and enforceable discipline policy. ADT trace detection technologies enable you do just that.
- Narcotics detection
- Explosives detection
- Substance identification

Why is ADT the right choice for your school?

From pioneering work in multisensor technology, to award-winning design breakthroughs, ADT has established itself as the leader in cutting-edge systems technology. Today our name is synonymous with innovation and quality, and we are widely regarded as the company that has achieved some of the most significant and forward-looking advances in our field.

The true beneficiaries of these advances, however, are the people that make the biggest investment in our products and systems – decision makers like you who trust ADT to deliver the most effective protection for their people, property, and assets.

One of the most important ways we meet our goals is by focusing on life safety markets that require special attention. Schools and campuses represent one of those areas. Every new product, every enhancement, and every development undergoes intense scrutiny from an education application perspective. We consult with industry experts in the field as well as our own in-house specialists to design and engineer products specifically geared to your facility. That's why, when it comes to choosing the best life safety systems and equipment, schools around the globe go with the leader in life safety and security technology: ADT.
